

Syllabus: Waste Water Management and Sanitation in Urban and Peri-Urban Areas

The Waste Water Management and Sanitation in Urban and Peri-Urban Areas course is free and self-paced. It is divided into one core Module, an assessment, and an assignment.

Module 1: Wastewater Management and Sanitation

Assessment: Course Quiz

Assignment: Submission of a two to three page case study detailing a policy initiative that benefits the environmental, social and economic dimensions of sustainable development relevant to the topic of the e-learning course (eg. low carbon green growth, wastewater management and sanitation, etc.). More details are provided upon enrollment.
