

Course

- **Full name of the course**

Executive Course: Advanced Crisis Management Skills for Public Officials and Leaders

- **Short name of the course**

Executive Course: Advanced Crisis Management Skills for Public Officials and Leaders

- **Institution**

UNITAR

- **Summary**

With this course, you will enhance your crisis decision-making skills and improve your knowledge of the latest in risk assessments and contingency planning.

- **About the course**

The Advanced Crisis Management (ACM) Course helps crisis teams, public officials, team leaders, and senior managers to understand and take control of crisis situations. Our priority with ACM is to enhance the crisis decision-making skills of the participants and to improve participants' knowledge of the latest in risk assessments and contingency planning. Over the course of this brand-new course, you will cover the following topics:

- *Determine the CM goals*
- *CM frameworks and theories*
- *Establish CM Team Roles and Responsibilities*
- *Recognize the source of risk*
- *Develop CM framework*
- *CM training and awareness*
- *Program management*

- **Target audience**

This course is ideal for:

- *Public servants;*
- *Managers and Senior Managers;*
- *Team Leaders;*
- *Crisis Teams;*
- *Participants from the Course on Crisis Management: Basic Skills;*
- *Any interested person*

- **Learning objectives**

By the end of this course, you will be able to:

- *Learn how to stay ahead of emerging threats rather than reacting to them*
- *Understand the importance of employing effective information and intelligence*
- *Understand quantitative and qualitative risk analysis*
- *Gain knowledge on effective deployment of current technology*
- *Master how to strategically evaluate countermeasures*
