

## **Syllabus: The Women ICT Frontier**

### **Background:**

The Women ICT Frontier Initiative (WIFI) flagship programme aims to promote women's entrepreneurship in Asia and the Pacific through enhancing capabilities of women entrepreneurs in ICT and entrepreneurship so that they and their enterprises can become more productive, and hopefully grow and be sustainable so that they can actively contribute to community development as well as to the local and national economy.

The WIFI programme was officially launched on 9-10 June, 2016 in Korea in a regional forum that examined the state-of-the-art of ICTD capacity building in Asia and the Pacific to develop the appropriate regional and national capacity development in support of the 2030 Agenda for Sustainable Development.

### **Layout:**

This course is free, self-paced, and divided into two modules as seen below:
