SDG Implementation in China
CONTENTS

• SDGs into national planning

• SDG implementation

• Preparation for SDG monitoring
Integrate the Agenda into domestic mid-term and long-term development strategies

- CPC Central Committee Communique
- 13th Five-Year Plan
- Innovative, Coordinated, Green, Open and Shared Development
Integrate the Agenda into domestic mid-term and long-term development strategies

- National Outline for Innovation-Driven Development Strategy
- National Sustainable Agricultural Development Plan (2015-2030)
- Decision on Winning the Tough Battle in Poverty Reduction
- The Plan for Healthy China 2030
- The Plan of China Education Modernization 2030
- National Program on Climate Change (2014-2020)
SDG Implementation in China

Led by Ministry of Foreign Affairs

• Establish domestic inter-agency coordination mechanism
• Present First Voluntary National Review
• Formulate National Plan on Implementation of the 2030 Agenda
• Release China’s Progress Report on Implementation of the 2030 Agenda for Sustainable Development
• NBS
  — Member of domestic inter-agency coordination mechanism
  — Member of IAEG-SDGs representing East Asian sub-region: take part in the consultation and implementation on SDG global indicator framework
NBS work on SDG implementation

- Participate in the consultation on SDG global indicator framework and the work of the IAEG-SDGs working group
- Establish a specialized working group within the organization
- Hold international seminars to strengthen statistical capability for developing countries
- Consultation on each indicator’s custodian ministry in progress
Preparation for SDG monitoring

- Translated the metadata information of SDG indicators, including definitions, calculation methods
- Assessment the data availability
  —around 20% indicators are or will be produced by NBS
  —around 35% indicators available
Preparation for SDG monitoring

SDG monitoring: challenges

• Data gap

• Coordination mechanism
  — International: reporting mechanism between custodian agencies and national focal point
  — National: assign the responsibility of line ministries at indicator level
Preparation for SDG monitoring

SDG monitoring: opportunities

• Localize the SDG monitoring framework
• Improve existing surveys, widen and explore new data sources
• Strengthen capacity building
• Assign the responsibility, promote the improvement of data reporting mechanisms
Practice sharing

• Deqing’s Progress Report on Implementing the 2030 Agenda for Sustainable Development

• CAEP and WWF’s joint study on localization of SDG indicators
Thank you for the attention!
